

The Purpose

Dear Doctor,

Today, with the entry of newer treatment modalities, the role & relevance of various therapies in the management of T2DM needs to be analyzed to take appropriate treatment decisions.

Moreover, on one hand it is critical to achieve glycemic control while on the other, managing patient safety is also paramount. Looking into these challenges, there is a need for Safe & Smart management of T2DM patients.

Kindly block your date for an insightful deliberation on T2DM management.
