

PARADOX CMEs

Cardiovascular diseases (CVDs) have now become the leading cause of mortality in India. Hypertension is one of the key modifiable factors in addressing CVDs. RAAS blockers are at the center of Hypertension management. This CME aims at discussing about and defining the typical AT-RISK patient and the review of treatment approaches available for the management of AT-RISK patients under the light of recent evidences.

Sanofi, being a patient-centric diversified global healthcare organization, focused on patients' needs is facilitating this CME. It's our pleasure to invite you in this scientific program. We wish to be a partner in your endeavor towards improving patient health by enhancing the knowledge dissemination of evidence based approach in treating AT-RISK Patients

Date : 10-06-2018
Time : 10.30 a.m.

Venue: Hyatt Regency, Ashram Road, Ahmedabad
